- Senior Architect and solutions leader with 26+ years of experience designing large-scale, highly integrated enterprise systems across financial services, banking, insurance, healthcare, utilities, and technology.
- 13x Salesforce-certified including Application Architect and System Architect.
- Hands-on AI/ML background through a postgraduate AI and machine learning program with Python, RAG, PyTorch, model deployment, and business AI applications; positioned to help enterprises adopt practical, governed AI solutions on Salesforce.

Core Architecture Strengths

Salesforce Architecture: Core platform, FSC, Service Cloud, Sales Cloud, Data Cloud, Agentforce

Enterprise Integration: APIs, event-driven architecture, Kafka, CDC, orchestration, error handling

Financial Services: KYC/AML, client onboarding, retail banking, wealth, investment banking, annuities

Data & Security: Data modeling, identity, access management, MDM, data consistency, compliance

AI / ML Applications: Python, RAG, PyTorch, model deployment, applied business AI use cases

Technical Leadership: Architecture governance, design reviews, code reviews, mentoring, delivery oversight

Delivery & Consulting: Stakeholder alignment, solution design, estimates, risk management, client advisory

Legacy Modernization: Mainframe and enterprise platform integrations, scalable migration patterns

DevOps & Release: Copado, AutoRABIT, release governance, COE operating model, CI/CD

Technical Skills

Salesforce	Apex, Visualforce, Lightning Web Components, Aura Components, AutoRabit, Copado, Heroku, MuleSoft, Service Cloud, Sales Cloud, Data Cloud, Agentforce.
Languages:	Python, C# (.NET), Java, JavaScript
Data/Integration:	Splunk, Apache Kafka, Elasticsearch, Informatica
Database:	MongoDB, SQL Server, Postgres, Oracle, Redis
Web:	ASP.NET MVC, AngularJS, Node.js

- Bachelor of Science (Electronics) [B.S.]
- Post graduate program in AI & Machine learning from University of Austin - 2026

Work History

Wipro, Plano, TX — October 2021 to Present

TD Bank – KYC/AML Salesforce Architecture

- Architected mission-critical end-to-end KYC/AML solutions on Salesforce for a leading financial institution serving Retail, Commercial, and Wealth Banking customers.
- Designed Salesforce data models, security controls, workflows, and technical designs to satisfy regulatory requirements, data integrity, and operational onboarding needs.
- Designed and governed Salesforce-to-Pega CRM integrations, defining APIs, data mappings, orchestration, validation, monitoring, and error-handling patterns for reliable cross-system data flow.

- Led technical oversight for development teams through design reviews, code reviews, issue resolution, architecture standards, security compliance, and end-to-end delivery validation.

United Health Care – Integration POC

- Partnered with product owners, QA, and engineering stakeholders for requirements discovery, use cases, integration assumptions, and validation criteria.
- Designed and implemented a cross-system integration proof of concept that established connectivity among systems using Data Cloud and satisfied QA and product owner expectations.

PNC Bank – Enterprise Salesforce Integration Architecture

- Provided architecture leadership for a large Salesforce ecosystem supporting thousands of users across Wealth Management, Investment Banking, Small Business Banking, and Retail Banking.
- Architected scalable, high-performance integrations between Salesforce and enterprise banking platforms including MDM/mainframe, retail systems, contact management, alerting, and downstream applications.
- Applied event-driven architecture, Kafka, CDC, Informatica, Splunk, and integration governance patterns to improve reliability, observability, and data consistency across integrated systems.
- Led multiple cross-functional teams through technical design, solution delivery, integration validation, and issue resolution for high-impact enterprise initiatives.

NTT Data Services, Plano, TX **June 2020 to September 2021**

Jackson National Life Insurance

- Translated business requirements into well-architected Salesforce solutions for a major insurance and annuities client, balancing business outcomes, technical feasibility, and maintainability.
- Partnered with project management and technical teams to communicate risks, resolve technical issues, distribute development work, mentor developers, and enforce code quality through reviews.

CapGemini, Boston, MA **Oct 2019 to May 2020**

National Grid

- Presented technical alternatives and recommendations aligned with customer service, Service Cloud, Field Service Lightning, integration, and enterprise technology requirements.
- Interfaced with business, project, integration, and offshore teams to deliver complete technical solutions, improve designs, mitigate architecture risks, and support planning/estimation.

Texas Capital Bank, Richardson, TX **Oct 2017 to Oct 2019**

- Implemented nCino, the bank's Salesforce-based banking platform, and designed transformational technical solutions by working directly with business stakeholders and consulting partners.
- Established Salesforce Center of Excellence release governance, coordinated customization efforts, and managed monthly releases across the Salesforce ecosystem.

Slalom Consulting, Dallas, TX **Jul 2017 to Oct 2017**
Experian, Allen, TX **Jan 2017 to Jun 2017**
Thomson Reuters, Carrollton, TX **Mar 2016 to Dec 2016**
Jack Henry & Associates, Allen, TX **Dec 2013 to Feb 2016**
Bank of America, Plano, TX **Oct 2005 to Nov 2013**
Verizon Communications, Irving, TX **Aug 2002 to Sept 2005**
SGI (Silicon Graphics), Mountain View, CA **May 00 to July 01**
